

In 2014 the label **meta records** is celebrating its 15th anniversary!

In celebration of this joyful event 4 new CDs will be released (see list on the back, CDs are enclosed).

Musicians of all 4 bands are available for interviews.

Informationen about the label

meta records is an independent music label. The label releases records ranging from experimental jazz via classical music to world music. Founded in 1999 by two musicians, Ralf Altrieth and Johannes Reichert, all projects that they release are projects close to their heart. Many interesting young bands release their debut with meta records (among them singer Elina Duni with her quartet, Günter Adler, Johnny La Marama, Vein, and many more).
